PPE helped me get my interview, and then my job.

-Shane Joynes, Epic Systems Corporation, a top private healthcare software company

The PPE Program offers an innovative research and learning environment that allows faculty and students to work collaboratively on problems of tomorrow’s world. The program attracts students who value genuine interdisciplinary learning and equips such students to become all-around leaders in the 21st century.

PREPARE FOR A CAREER OR GRADUATE SCHOOL

Graduate School

The PPE Program prepares students well for academic programs, especially for law school, medical school, business school, and master’s and doctoral programs in philosophy, political science, economics, and related social sciences.

Public and Private Sectors

The PPE Program prepares students well for a wide variety of careers in the private and public sectors, such as careers in management, consulting, academia, investment banking, finance, business administration, law, journalism, government, public administration, public policy, health care, international affairs, international development, and non-profit organizations.
